		Above 4" - to be determined	

SEWER CONNECTION INSPECTION FEE: \$170.00

OTHER:

Each inspection other than connection, 1/2 hour minimum: \$30/hour
Installation of special "wye": \$50

Where connections involve main sewer lines installed at City's expense without assessment to the property, an additional charge representing user's assessment shall be charged at the time of connection based upon property owner's frontage.

In the event POTW service to any building or premises in the POTW is shut off, a fee to be set by the POTW shall be charged for restoring sewer service.

When a user's discharge causes an obstruction or damage, or because of the nature of the discharge, toxic pollutants increase the costs for managing the effluent or the sludge of the POTW, the user shall pay for the costs.

All users discharging sewage into the POTW shall be subject to a surcharge, in addition to other sewer service charges, if these wastes have a concentration greater than BOD of 200 mg/l or TSS of 250 mg/l. The computation of the sewage surcharge is determined by the following formulae: $SC = VS \times 8.34(RBOD(BOD-200))$ and $SC = VS \times 8.34(RSS(TSS-250))$, where:

- (a) SC means surcharge in dollars.
- (b) VS means volume of sewage in millions of gallons for the billing period.
- (c) 8.34 is the conversion factor to convert BOD and TSS from mg/l to lbs.
- (d) RBOD means the unit charge for BOD in dollars per pound, being \$.052.
- (e) RSS means the unit charge for TSS in dollars per pound, being \$.0082.

Users who discharge septic and holding tank waste into the POTW shall pay \$25.00 for any amount up to 1,000 gallons discharged, and an additional \$30.00 for each additional 1,000 gallons or fraction thereof.
