

WATER CONSERVATION SCHEDULE

Tooele City is implementing a water schedule for outdoor water use for all local residences, businesses, schools, and government agencies using culinary water.

In the water conservation schedule, the City is divided into three sections and watering is allowed twice weekly. (See adjacent table.)

Area #1 All water users North of Vine and West of Main water Wednesdays and Saturdays.

Area #2 All water users North of Vine and East of Main water Tuesdays and Fridays.

Area #3 All water users South of Vine water Mondays and Thursdays.

Outdoor watering is not permitted on Sundays.

The City encourages residents not to water during the hottest hours of the day, typically between 10 a.m. and 6 p.m.

This conserves water and reduces the amount of water bills.

If there are special circumstances that require a

modified schedule for residents or businesses—such as newly planted sod or lawn, contact Tooele City at 843-2150.

City parks and schools have been placed on a modified schedule because of the size of their lawn areas. While some parks and schools may be watering more than two days each week, a specific area of that park is only watered twice during the week.

Water Wise Tips

Irrigate By Zone –Lawn, trees, shrubs and flowerbeds all have different watering requirements. Separate your landscaping into different irrigation zones, then water accordingly.

Hand Water Dry Spots—If you have a dry spot on your lawn, water it by hand to avoid over watering the remainder of the lawn.

Repair Your Sprinklers—Check all your sprinkler heads and hoses for leaks or winter damage. Adjust sprinkler heights and an-

gles to increase water efficiency.

Use Your Broom– Sweep sidewalks, driveways and other paved areas with a broom instead of using the hose.

“We are asking our citizens to please cooperate with this schedule. It will allow the tanks to fill during off hours. We all need to conserve this precious resource,” Mayor Patrick Dunlavy says.
